Hi everyone,

First off, we want to give a BIG thank you to all those who worked shifts at the recycling center in December! We could not have done it without your help! As you noticed, it's SO MUCH EASIER than it used to be to serve our community & help the environment!

Because of the program's success, & an increasing demand from the community for more availability, the city has proposed changes to the recycling center schedule. Starting February 1, 2021, each school will be responsible for staffing the recycling center one day a week each month, instead of the current model of staffing 2 full months each year. The sign-up genius link: rb.gy/xfflx2 includes all the shifts assigned to Colony Oak for the next few months. Here are a few details:

- Hours for Monday, Wednesday, Thursday and Friday will be 3:30-6:30pm.
- Hours for Tuesday will be 10:00am-12:00pm and only commercial users.
- Hours for Saturday will be 8:00am-12:00pm.

Our school's assigned day will change each month, but we are assigned to staff Mondays in February, Tuesdays in March, Wednesdays in April, & Thursdays in May this school year.

As always, hours worked at the recycling center earn money towards the cost of science camp in 6th grade. But this is also a community service we can provide to the residents of our city, a way to help the environment, & helps earn money for our school's PFC, so **we are asking each 4th-6th grade family to sign up for at least 1 shift this school year. Please use the sign up genius link rb.gy/xfflx2 to sign up for open shifts.**

We appreciate all you do for our school & community, and your partnership & help with the recycling center. If you have any questions, please email colonyoakpfc@gmail.com. Thanks!
